## ISO 9001:2008 STAGE 1 AND STAGE 2 CERTIFICATION

As part of its Quality Policy and commitment to deliver excellent public service to all Isabeños, the Provincial Government of Isabela, composed of different departments and line agencies worked towards achieving ISO 9001:2008 Stage 1 and Stage 2 certification.

As early as 2016, ISO representatives were assigned from each department to be trained as Internal Auditors tasked to ensure that quality and efficiency in their respective Offices are in accordance with the Provincial Government's Quality Policy as well as their own Department's Vision and Mission.

The Internal Auditors attended a series of seminars and workshops throughout the year to ensure that internal audit processes are being complied with on each department and all documentary evidence are available for each procedure and supported by actual records and references. Among the tasks provided and with the guidance of the Provincial Administrator, QMR, Document Control Center, as well as an external ISO consultancy company specifically hired to introduce the International Standards and provide necessary training, the Internal Auditors were then assigned to audit other departments apart from their own, as a dry run to ensure compliance to

the ISO Standards in preparation for the external audit teams actual audit and certification.

As of August 17, 2017, Atty. Noel Manuel R. Lopez, Isabela Provincial Administrator proudly announced that the Provincial Government of Isabela is already granted Stage 1 and Stage 2 Audit Certification which makes the Province ISO 9001:2008 Certified.
